Here are the correct answers for this CSS set:

1. **Indicate whether table cells share a single border or have distinct borders →** border-collapse
   ✅ **Answer:** border-collapse

2. **Rounded corners or borders** → border-radius
   ✅ **Answer:** border-radius

3. **How far apart table cell borders are** → border-spacing
   ✅ **Answer:** border-spacing

4. **CSS selector for elements that don't match** → :not selector
   ✅ **Answer:** :not selector

5. **Not a kind of combinator** → * (it's a universal selector, not a combinator)
   ✅ **Answer:** *

Do you want me to prepare the **full combined answer key** for all the HTML + CSS questions you've uploaded so far? That way it's one clean sheet.
